### The Department of Molecular Biosciences: Assistant Professor

Location: Austin, TX

Opens: September 1, 2021

Closes: November 1, 2021

#### Overview

The Department of Molecular Biosciences at the University of Texas at Austin invites applications for tenure-track faculty positions at the Assistant Professor level. The Department has a large and diverse faculty, and a broad range of research areas will be considered including biochemistry, cancer biology, cell biology, developmental biology, microbiology, immunology and infectious disease, molecular biology and genetics, plant biology, structural biology (in particular cryo-electron microscopy and cryo-electron tomography), and synthetic and systems biology. The Department and University are especially interested in candidates who are committed to building a diverse and inclusive academic environment as we view inclusiveness as essential to the excellence of our community.

#### Qualifications

We seek an outstanding investigator with a Ph.D. or equivalent degree in a relevant discipline who will build an active research program and value teaching at the undergraduate and graduate levels. Successful candidates will be eligible for membership in the Interdisciplinary Life Sciences Graduate Programs and have access to excellent core facilities, including those in the [Center for Biomedical Research Support](#), the [Genome Sequencing and Analysis Facility](#), the [Texas Advanced Computing Center](#), and the [Sauer Center for Structural Biology](#), which houses two state-of-the-art cryo-electron microscopes. The position offers excellent start-up funds, salary, and laboratory space in a dynamic and highly interactive research environment in the vibrant city of Austin.

#### Application Instructions

Applicants should apply through Interfolio (<https://apply.interfolio.com/94102>) with the following documents:

- 1) Cover Letter that includes research area, qualifications, and contact information
- 2) CV
- 3) A statement of research interests
- 4) Three confidential letters of recommendation
- 5) Statements of past or potential contributions to diversity and inclusion are welcomed.
